## Make Promise

(author: Sandeep)

[Score: 10]

Write code so that on execution, Program prints following two lines of output (Case-Sensitive)

**I promise to 'WORK HARD'; to become "PROFICIENT" at Programming!**

**1 hour regular practice for 5 days is much effective than doing nothing for 4 days and planning to do 5 hours on last day!**

## Example Input - Output

Write code in such a way that your program outputs following message (Case-Sensitive)

I promise to 'WORK HARD'; to become "PROFICIENT" at Programming!

1 hour regular practice for 5 days is much effective than doing nothing for 4 days and planning to do 5 hours on last day!

## Code

Language:

PYTHON3 ▾ ↺

```
1 # Use tab as indentation character
2 def main():
3     print("I promise to 'WORK HARD'; to become
4     'PROFICIENT' at      Programming!")
5     print("1 hour regular practice for 5 days is much
6     effective than doing nothing for 4 days and planning
7     to do 5 hours on last day!")
8
9 if __name__ == '__main__':
10     main()
```

☐ Test against custom input

Submit Code
