Take Pledge - Easy

(author: Sandeep)

[Score: **10**]

Write code so that on execution, Program prints following output (Case-Sensitive)

I pledge to WORK HARD; to become PROFICIENT at Programming!

Example Input - Output

```
Write code in such a way that your program outputs following message (Case-Sensitive)

I pledge to WORK HARD; to become PROFICIENT at Programming!
```

Code

Language:

PYTHON3 ⌄   ↺

```
1  # Use tab as indentation character
2  def main():
3      print("I pledge to WORK HARD; to become
   PROFICIENT at Programming!")
4  if __name__ == '__main__':
5      main()
```

☐ **Test against custom input**   (Submit Code)
